PROPERTY PRICES

The land is situated within an affluent area. Property prices in Tring are **60% above the national average** (Source: Zoopla). These premium house prices reflect the desirability of the area as a place to live and own property – including land.

OVERAGE

The land is subject to an Overage based on 20% of any uplift in value following the grant of planning permission for development other than that which is for agricultural or private equestrian purposes. The Overage period is 20 years from October 2020.

LAND VALUES

Land values in the region rose by 6% last year, higher than the national average, despite numerous challenges in the local market & global economy. This once again shows the inherent resilience of agricultural land as a tangible asset.

With a wide range of potential uses, agricultural land remains an attractive investment for a diverse range of buyers. This is supported by the fact that, **in the past 5 years, land values have risen by 31%**, outperforming the FTSE 100, UK property prices and interest from savings in the bank.

These rises are driven by low levels of land availability, as demand continues to outstrip supply.
